

OUR QUALITY COMMITMENT

August 2025

Quality Commitment from Interpro Pipe + Steel

Quality Policy

With scrap turned into new steel, Interpro Pipe & Steel Inc. produces the materials vital to energy exploration, recovery and transmission, central to the movement of goods and people, and critical to building North America's industrial infrastructure. From railroads to green energy, our engineered steel products strengthen our economy.

Consistent with our Core Values and our uncompromising priorities of safety and quality, we commit to all of our internal and external customers that we will:

- Manufacture products with unmatched quality, delivered on-time, meeting or exceeding our customers' total expectations. Every day.
- Build a culture of making it right the first time through engagement, collaboration, training, awareness, and a focus on quality of production.
- Focus on our passion for continually improving every aspect of our business.

We will do this by:

- *Defining and adopting meaningful key performance indicators to drive our business performance.*
- *Strengthening the quality of our products through active process control and our applied quality processes based on risk.*
- *Developing partnerships with our suppliers to improve performance.*
- *Continually improving the effectiveness of our quality management system.*

We proudly sign our name to every product we make.

On behalf of all members of the Interpro Pipe + Steel team, we are pleased to endorse this Quality Policy, our commitment to you.

Doug Matthews
CEO | Orion Steel

Don Hunter
